

Educator highlight

Dodynne Nkebolo

Dodynne Resides in Keswick with her Husband and child. She is a patient and compassionate Educator with a deep passion for working with children and supporting their holistic development. This is apparent through her day-to-day positive interactions with the children under her care, and her dedication to staying with the latest advancements in with the children under her care.

Dodynne believes every child develops at their own pace and she provides guidance , encouragement and a consistent level. She invasions herself as a positive influence in children’s lives for as long as she continues her journey as an educator. As per weather permits Dodynne ensures that her dayhome children spend a reasonable amount of time outdoors, engaging in seasonal activities , exploring nature.

Dodynne focuses on creating warm, supportive environment where every child feels valued, capable and loved.

Making a flowchart based on children's multiple interests in your group: Write the date in the middle. Look at your your child observation to determine children's interests, add activities to the flow chart that go with each child's interests. Add all children's interest/activities to the flow chart so you only need to create one flowchart. It covers all children's interests in your dayhome.
